

Invitation to the digital foundation meeting 'Crypto Community Switzerland' on 28th of May 2020 at 17.30

Dear interested founding members,

you have been contacted by us because you have already been in contact with us - the 'Crypto Community Switzerland' (Meetup, Eventbrite, LinkedIn, XING, Twitter, etc.) or because you have participated in an event.

We hereby invite you to the next step. Take the unique opportunity to make history by attending the digital association founding meeting and to participate as a founding member of the association 'Crypto Community Switzerland'.

Unfortunately, digital participation is not possible without the administrative part. Anyone interested must first register, as participation is only possible for registered interested parties. Not fully registered persons cannot participate in the meeting and are not entitled to vote.

Fully registered participants will receive an electronic confirmation of participation and an invitation in advance.

The registration must be made on app.cryptocommunity.ch by 23rd of May 2020.

The relevant documents, such as the agenda and the statutes of association, are available for inspection by the general public in German and English at www.cryptocommunity.ch/foundation.

Invited persons can then submit their proposals regarding the agenda, statutes, etc. in advance by 26th of May 2020 at admin@cryptocommunity.ch with reference to the 'Founding Meeting CCS'. The items submitted and to be discussed will then be included accordingly at the founding meeting.

Later registrations and written submissions are no longer possible and will not be considered.

Of course, even after the foundation meeting, support of the association by joining or as a patron is always possible and welcome.

Members benefit from free participation in the regularly held evening events or reduced prices for other current theme events, receive the periodic newsletter free of charge and access to other members in the members' area on the Internet. The offers are constantly being expanded as the number of association members grows. Simply visit www.cryptocommunity.ch.

We look forward to your participation:

Lienhard Oliver

Stockinger Michael F.

Strauss Laurent

Zschokke Alexander
